**M.B.P.M. Chapter 8, Section 30 Skilled Nursing Facility Level of Care –**

General Care in a SNF is covered if all of the following four factors are met. Initial each section when documentation is completed to meet the requirements:

\_\_\_\_\_ The patient requires skilled nursing services or skilled rehabilitation services, i.e., services that must be performed by or under the supervision of professional or technical personnel (see 30.2-30.4); are ordered by a physician and the services are rendered for a condition for which the patient received inpatient hospital services or for a condition that arose while receiving care in a SNF for a condition for which he received inpatient hospital services;

\_\_\_\_\_ The patient requires these skilled services on a daily basis (see 30.6); and

\_\_\_\_\_ As a practical matter, considering economy and efficiency, the daily skilled services can be provided only on an inpatient basis in a SNF. (See 30.7)

\_\_\_\_\_ The services delivered are reasonable and necessary for the treatment of a patient's illness or injury, i.e., are consistent with the nature and severity of the individual's illness or injury, the individual's particular medical needs, and accepted standards of medical practice. The services must also be reasonable in terms of duration and quantity.
